## FARM NOTES

*In the early 1920s, the late Walter and Ernestine Rawl started a small farm known as the Walter P. Rawl Farm. The company has been managed by Walter's kids and grandkids over the last 90+ years as it has grown into a much larger agricultural business growing and processing leafy greens, herbs, and over 13 other varieties of vegetables.*

*Today our farm is supported by a team of wonderful men and women dedicated to providing fresh, wholesome vegetables from our family farm to you. At WP Rawl, we take pride in cultivating the potential within our teams, growing partnerships with our customers, and ultimately providing nourishment to our consumers and their families.*

*Our business is growing – Growing Crops. Growing Customers. Growing People.*
